FADE IN:

INT. KIA'S BEDROOM - NIGHT

KIA sits in front of her computer typing an essay for a class. After a few minutes she minimizes the word processing programming, and scratches the top of her head.

KIA
Why can't I think of anything else
right now?

Kia stares blankly at the screen for a few minutes. She then grabs her mouse and double clicks on her web browser. Her homepage loads up as an internet-based email provider.

KIA
Might as well check my mail.

Kia enters her user name and password into the boxes on the page and hits enter. The page loads up and Kia does not have any new messages. She logs out of the page and loads up a search engine.

KIA
Well since I'm a little bored right
now, there's no reason why I can't have
a little fun.

She types "Paul Rossi" into the search box, and presses the enter key on her keyboard. The search brings up some results the most relevant one being an obituary from the Lincoln Park Times. Kia clicks on the link, the page loads up and Kia reads part of the article.

KIA
Richard and Cheryl Rossi, owners of
Rossi's coffee shop had a tragic car
crash on Saturday the twenty-fourth.
Their only son, Paul Rossi, survives
them. (pause) Better not read the rest.

Kia clicks the back button on her browser and then clicks on the search bar. She types in "Mark Crichton", and presses the enter key. All the search brings up are sites about the Book of Mark from the bible, and information about author Michael Crichton. Kia clicks on the search bar again, types in "Eddie Morita", and presses enter. The search brings up information about actor Pat Morita, a review of a book by Dr. Isaac Morita, and information about actor Eddie Izzard. Kia clicks on the search bar again, highlights the last three letters of Eddie's name and types "ward". She presses enter. The search brings up the same information about Isaac and Pat Morita, but also turns up a site about King Edward III of England.

KIA

So Mark, and Eddie brought up nothing.
I wonder if there's something about
Rachel online.

Kia clicks on the search bar again, types "Rachel Lopez", and hits enter. The search brings up a fan site about a character named "Rachel" from a hit sitcom, and numerous pages about Jennifer Lopez.

KIA

(sighs) That's it for the others.
(pause) Why didn't I think of this one
before?

Kia clicks on the search bar and types "Quinn Mackenzie". She hits enter. The search brings up numerous new articles about a "Dr. Quinn Mackenzie", most of which relate to Mindset. Kia looks at a few of these sites.

KIA

I've got to show this to the others.

An instant messenger window pops up on Kia's screen from a person by the user name "pikapix58". The message says simply "'sup?" Kia types, "there's something you've got to see. i'll show you tomorrow in d.a.t.a. base", and presses enter. The messenger replies by saying "k".

KIA

This is definitely something the others
need to know. But I can't help but
wonder if Doc might be a little upset
if I were to show them this.

FADE OUT. OPENING CREDITS.

FADE IN:

INT. THE MONITORING ROOM AT D.A.T.A. BASE - DAY

PAUL stands around. Eventually Kia enters the room.

KIA

You're the only one?

PAUL

Everyone else has got a class right now. So what do you want to show me?

KIA

You'll see.

Kia walks over to the computer terminal and loads up a web browser. She goes to the same search engine she went to the previous night, and types "Quinn Mackenzie" in the search bar. The search loads up with the same results Kia got previously.

PAUL

So what's all this about?

KIA

I got a little bored last night, so I checked all of you out on a search engine.

PAUL

What'd-?

KIA

Just your parents' obituary came up for you. The others were a little mixed. But when I did a search on Quinn Mackenzie...well just take a look.

Kia clicks on the first site, which brings up a news article from a weekly news magazine. The headline reads "Mackenzie Labs in dire situation".

PAUL

So Doc had his own company at one time?

KIA

Apparently. But there's something else you should know about this company of his.

Kia clicks the back button on the browser, and loads up the next site on the search results. The page loads up as another article from another weekly news magazine with the headline "Talk of aliens is making Mackenzie a laughing stock".

PAUL

I knew Doc said that he was laughed at when he found out about Mindset, but I didn't realize it was national news.

KIA

That's not all, and this is something that might change your opinion about Doc.

Kia hits the back button on the browser again and loads up the third site down. The site comes up as an article from the Lincoln Park Times with the headline "Mindset to buy out Mackenzie Labs".

PAUL

He sold his company to Crittenden?

KIA

Personally I don't blame him, because he probably needed the money.

PAUL

That would explain why he has all of this.

Paul points in the direction of everything within D.A.T.A. Base.

KIA

Now I've got a theory about everything, but it's a little out there.

PAUL

Shoot.

KIA

Basically what I think happened was that his company was going great up until Mindset came onto the scene and started to become what they are today, which at that point Crittenden started to have these talks with Doc about buying him out.

PAUL

Let me guess, he then discovered about the alien thing at a meeting at their headquarters, but when he went public with the information he became a laughing stock.

KIA

Exactly. He probably also lost the business he would've had, and the only way to try to make it was to sell out to Mindset.

PAUL

There's something telling me that Mindset probably also ruined his reputation too.

KIA

Could be. But I do find it hard to believe that Doc did everything that he did out of revenge.

PAUL

If that's the case then I really can't judge him.

KIA

Why not?

PAUL

If you remember when we first got our morphers, I pretty much agreed to be the Red Ranger because we were going to fight against Mindset.

KIA

But what does that have to do with anything?

PAUL

I pretty much said yes, because I wanted to get back at Mindset for what they did to me in their lobby.

KIA

Okay I get it now.

PAUL

Anyway, we'll have to tell the others about this later, because I've got a class in a few minutes.

KIA

So do I.

Paul and Kia leave the monitoring room.

FADE OUT.

FADE IN:

INT. A SCIENCE LAB AT LINCOLN U - DAY

Kia sits in the class at one of the workstations. Her professor walks into the class.

KIA'S PROFESSOR

Good morning everyone. Now I've got a little treat for you today that's not on the syllabus. I just managed to book a guest speaker at the last minute last night. So please welcome Dr. Alden Conroy from Mindset Industries.

CONROY walks into the room.

CONROY

Thank you for having me.

Kia stares at Conroy for a few minutes.

KIA

(INNER)

Where have I seen him before?

Conroy gives his lecture, but Kia does not listen. She is too busy focusing on Conroy.

KIA

(INNER)

I'd say it couldn't be, but Paul does have some first hand experience in that department.

INT. A SMALL LECTURE HALL IN THE UNIVERSITY - DAY

Paul sits a few rows back from the front of the class. His professor walks in.

PAUL'S PROFESSOR

Today class as you know we have a guest speaker, but the person who was scheduled couldn't make it today, but luckily enough we were able to get a replacement, who I believe is much more important than the one we had. So please welcome CEO of Mindset Industries, Adrienne Crittenden.

CRITTENDEN walks into the class. Paul gathers his books and puts them in his backpack. He gets up and starts to leave the class.

PAUL'S PROFESSOR
Is there something wrong Paul?

PAUL
No, nothing overly major.

CRITTENDEN
If it's nothing major Mr. Rossi then why don't you share it with the rest of the class?

Paul turns to face Crittenden.

PAUL
Well Ms. Crittenden, I think the two of us know why I'm leaving right now. And quite frankly there's nothing you couldn't tell me about your company that owns the waterworks and that hotel on Baltic Avenue that I don't all ready know.

Paul leaves the class.

PAUL'S PROFESSOR
Let me apologize for him.

CRITTENDEN
No need, I had a business deal with him that went a little sour for both him and my company.

INT. KIA'S CLASS - DAY

Conroy finishes up his lecture.

CONROY
And there you have it.

KIA'S PROFESSOR
Let's show Dr. Conroy our gratitude for coming in today.

The entire class claps for a few moments. All of the students get up from their seats. Some students stay behind to talk to Conroy. Kia leaves the class, and enters the hall. As Kia walks through the hall she passes by Crittenden. Kia notices Crittenden.

KIA
I've got to tell the others.

FADE OUT.

FADE IN:

INT. THE COFFEE SHOP - DAY

Paul, MARK, and RACHEL sit on the couch.

RACHEL

So let me get this straight, you actually walked out on a class? Why?

PAUL

I thought we covered this all ready Crittenden was in there.

RACHEL

She was there as a guest speaker. You could've at least shown her some respect by staying.

MARK

But you're forgetting the history Paul has with Mindset.

RACHEL

It's the same I have.

PAUL

No it's not. My first experience with the Dragonites actually happened before I got my morpher.

RACHEL

Really? How'd you do?

PAUL

I actually did fine until Dragos showed up that day. But we really shouldn't be talking about this here. Especially since there's someone here who has yet to be let in on our "little secret".

MARK

When is Isabel going to find out about us?

PAUL

From what Doc said, he wants to meet her first, and then give his yay or nay. But luckily he'll be back soon.

Kia walks into the shop.

KIA

You'll never believe who gave a guest lecture in one of my classes today.

MARK

Who?

KIA

Venge.

RACHEL

Wait a minute; Dr. Venge actually came into your class to speak?

PAUL

Let me guess, he was in a human disguise, right?

KIA

Yeah, plus I think I saw Insidia too.

PAUL

You probably did. Crittenden showed up at one of my classes today.

MARK

Why did the university actually allow people from Mindset to come in and speak?

PAUL

You forget; the actual corporation of "Mindset Industries" is Insidia's legitimate face. Like some of the businesses the Corleones own that aren't the "family business". And Kia should we tell them?

RACHEL

Tell us what?

KIA

I found out some stuff about Doc last night. How about we go to D.A.T.A. Base? I've all ready told Eddie to meet us there.

FADE OUT.

FADE IN:

INT. INSIDIA'S LAB - DAY

Crittenden and Conroy enter the lab, and turn into their true identities of INSIDIA, and DR. VENGE, respectively. MALEVALA and DRAGOS enter the lab.

INSIDIA

That orb you told me about sounds very promising Venge.

DR. VENGE

If we could harness its power, we might actually destroy the Rangers.

INSIDIA

However, you are to not create the monster this time.

DR. VENGE

What? Why?

INSIDIA

The Stone Titan, and the Weather Waker both failed.

DR. VENGE

But Dragos' Dragon Titan and Malevala's Oniken didn't exactly do that great either.

MALEVALA

But Oniken nearly defeated the Rangers. In fact Insidia, I know just the creature you could be looking for. Chouninpo! Akuma meshidasu!

Malevala extends her arms forward and the BAKUMA monster comes forward.

BAKUMA

You called Malevala?

MALEVALA

Yes Bakuma. So what exactly is the plan mistress?

INSIDIA

Malevala, I want you Dr. Venge and Bakuma to go to the university and find the data orb that you mentioned Venge. I want it in my possession by the end of the day, or you will suffer the consequences.

DRAGOS

What about me Insidia?

INSIDIA

You stay here Dragos. I have a much more important role for you within the coming days that you will need to prepare yourself for.

DR. VENGE

Malevala, what exactly does this monster do?

MALEVALA

You'll see soon enough Venge.

Malevala, Dr. Venge and Bakuma disappear.

FADE OUT.

FADE IN:

INT. THE MONITORING ROOM AT D.A.T.A. BASE - DAY

Paul, Mark, EDDIE, Rachel, and Kia stand before a screen that has one of the same sites that Kia showed Paul earlier.

MARK

That is weird. I wonder why Doc never mentioned this.

RACHEL

He probably thought it wasn't any of our business, so he just told us what he wanted us to know.

EDDIE

But why did he actually give us his real name?

PAUL

My guess is that he never thought we'd bother to check him out. You know for someone who's supposed to be so smart, he did make one heck of a stupid move.

KIA

The funny thing is that he was a very prominent scientist, yet I've never heard of him.

RACHEL

How long ago was it that you decided to get into science Kia?

KIA

My second last year of high school, why?

RACHEL

Did you ever pay attention to any of the news about scientists before that?

KIA

No.

RACHEL

That's why you've probably never heard of him. Now as far as the other aspect of Doc goes...

PAUL

No Rachel, I've never heard of Mackenzie Labs. And if you need to know, I didn't start reading the business section of the newspaper until after the coffee shop went into my name.

MARK

You know it's kinda funny how you all ready knew what Rachel was going to ask Paul.

PAUL

There's nothing funny about it, just a little predictable.

Rachel shoots Paul the stink eye for a second.

EDDIE

So what are we going to do about this information for now?

PAUL

There's nothing we really can do now. Besides I've got to go back to the shop to do some work.

Mark checks his watch.

MARK

And I've got a class in fifteen minutes.

RACHEL

I've got a class myself.

EDDIE

So do I.

Paul, Mark, Eddie, and Rachel leave the monitoring room. Kia remains, and keeps an eye on the screens. After a while the radar picks up some activity at the university.

KIA

Looks like I need to go.

FADE OUT.

FADE IN:

EXT. THE LINCOLN UNIVERSITY CAMPUS - DAY

Malevala, and Bakuma terrorize the area. Numerous students and professors run out of the way in fear. The D.A.T.A. Tracker with Kia (morphed) driving comes up to them. Kia parks the vehicle and gets out.

MALEVALA

So it's only you Pink Ranger?

KIA

The other Rangers are a little tied up at the moment, but don't worry Malevala I'm sure it'll be a pleasure to defeat me.

MALEVALA

I can't believe I actually agree with you Pink Ranger. Either way Bakuma, get her!

Bakuma charges at Kia. Kia draws her D.A.T.A. Blaster and fires a few shots at the monster. The monster takes the shots and falls back a little.

BAKUMA

Time to up my arsenal.

Bakuma opens up a panel on his front and a blue ray shoots out that scans an old cannon that is on campus. A replica of the cannon appears over Bakuma's left shoulder.

BAKUMA

There, much better.

Bakuma starts firing shots from the new shoulder cannon at Kia. Kia dodges the attacks, which kick up a bit of dust. Kia then jumps through the dust with her Sub Blaster in hand and fires a few shots at Bakuma from that. All but one of the shots hits Bakuma. The one that did not hit the monster hits Dr. Venge as he comes up to Malevala with a silver orb in hand. The shot causes Dr. Venge to lose his grip on the orb and it goes flying up into the air, and lands in the grass of the campus. A male student sees the orb falling to the ground, picks it up, looks at it for a few seconds and then puts it in one of his pockets. The student then looks at his watch and quickly takes off.

DR. VENGE

You'll pay for that Pink Ranger.

KIA

I don't know why you guys want that thing, but it can't be good.

MALEVALA

Then it looks like it's now a race to see who can get to that orb first. And believe me it will be us. Venge, Bakuma, let's go.

Malevala, Bakuma, and Dr. Venge disappear. Two professors come running out into the campus and go up to Kia.

PROFESSOR 1

Good, a Power Ranger is here.

KIA

What can I do for you?

PROFESSOR 2

That orb those things just stole contain the plans to a new massive construction vehicle that we have been designing.

KIA

What exactly does this thing do?

PROFESSOR 1

We cannot tell you, but given those aliens' intentions whatever they do with it could lead to the city falling in ruins.

KIA

Don't worry. I'll get it back.

PROFESSOR 2

Thank you Pink Ranger.

The professors leave. Kia takes out her morpher and rotates the screen.

KIA

Guys come in. (pause) Red? (pause) Black? (pause) Blue? (pause) Yellow? (pause) Great, I'm doing this on my own.

FADE OUT.

FADE IN:

INT. INSIDIA'S LAB - DAY

Malevala, Dr. Venge, and Bakuma stand before Insidia.

INSIDIA

You idiots! How could you let some human get away with the orb?

MALEVALA

I won't happen again mistress.

INSIDIA

It better not, or there will be some major repercussions should you fail.

MALEVALA

Yes Insidia.

INSIDIA

Now go! Venge you stay here.

DR. VENGE

As you command Insidia.

Malevala and Bakuma disappear.

INT. THE MONITORING ROOM - DAY

Kia (now unmorphed) stands in front of one of the computer terminals with a map of the city on one of the screens. Kia is also conducting a scan of the city.

KIA

Okay, if there is in fact some kind of great power within that orb, it'll definitely come up in this scan.

The scan finishes and no results come up.

KIA

Great, just great. I've got to do this the hard way.

DOC appears on screen.

DOC

Kia, good to see you in here.

KIA

What's going on?

DOC

Nothing much, I'm just checking up on everyone. Are you the only one here?

KIA

Yeah, everyone else either has work or a class right now.

DOC

Don't worry they'll eventually come around. I don't have much time, but when you get the chance, I want you to try out Shovel 7. After seeing the results with Drill 6, I'm certain the other Trekkers will be no problem.

KIA

Okay, but before you go I've got a question.

DOC

Sure.

KIA

I did some research last night and found a few online magazine and newspaper articles on you.

DOC

Hopefully something good, right?

KIA

Actually they dealt with you and Mindset. I just-

DOC

I'll tell you and the other Rangers, everything when I get back. I really need to get going now. See you later.

Doc's image vanishes from the screen.

KIA

That was kinda odd. But at least he's going to explain everything to us. Either way I've got work to do.

FADE OUT.

FADE IN:

EXT. A TRAINYARD NEAR A WAREHOUSE DISTRICT - DAY

The male student (wearing a white hardhat and an orange safety jacket over top of his clothes) does some work. His boss comes out.

BOSS

Hey kid.

STUDENT

What?

BOSS

I need you to go down the tracks a little to one of the warehouses. There's some sheet metal I need you need to move with a forklift.

STUDENT

Okay.

The student walks down one of the tracks and into one of the warehouses. The student gets into the nearby forklift and turns it on. The student then drives the forklift up to a skid that has some sheet metal on it. The student positions the forklift to lift the skid, and once the skid is lifted the student drives the skid to the other end of the warehouse. The student places the skid to where it needs to be just as Malevala and Bakuma enter the warehouse. The student turns off the forklift and gets down from it.

STUDENT

Sorry, but you can't be in here right now.

MALEVALA

The only one who's going to be sorry is you. Unless of course you hand a silver orb over, that you picked up today.

The student reaches into one of his pockets and finds the orb. He holds it up.

STUDENT

You mean this?

MALEVALA

Yes. Now be a good boy and hand it over.

STUDENT

But why should I hand it over to you?

Bakuma aims his cannon arm at the student.

BAKUMA

Because you will face oblivion if you don't. Now hand over the orb!

VOICE

Not so fast!

Kia (morphed again) runs into the warehouse with her D.A.T.A. Blaster drawn. She stops near the student, and aims her Blaster at Bakuma.

KIA

Hand the orb over to me.

STUDENT

Then why should I hand it over to you? This thing looks like it's made of solid silver. It could rake in a fortune for me.

Kia looks over at Malevala.

KIA

Do you want to tell him about the orb or should I?

MALEVALA

Be my guest.

KIA

That orb contains the blueprints to a new construction vehicle.

MALEVALA

Which could also be used to destroy you and the other Rangers, Pink Ranger.

STUDENT

Would either of you say that this thing is more valuable than if it were pure silver?

KIA

Probably.

MALEVALA

It might.

STUDENT

Good, now how much are either of you going to pay me for it?

MALEVALA

Anything you want.

KIA

What's with this obsession with money?

STUDENT

I'm a college student. I've got tuition to pay, and I've got to eat somehow. Happy?

KIA

Then get a part-time job.

STUDENT

I have one, and up until miss blue girl showed up I was working. So who's going to pay me for this?

MALEVALA

I can give you an upwards of one million if you hand it over now.

STUDENT

Sold!

MALEVALA

Good, now give it here.

The student tosses the orb over to Malevala. Malevala catches it. Bakuma aim his cannon arm at the student and fires. Kia jumps in front of the student before the blast can hit him.

STUDENT

That wasn't part of the deal.

MALEVALA

That's what you get for dealing with someone like me. Bakuma, let's try this outside.

Malevala and Bakuma walk out of the warehouse. Kia gets back to her feet.

KIA

I hope you're happy now.

STUDENT

Just what are they going to do with the orb?

KIA

There's no telling with them.

EXT. THE WAREHOUSE - DAY

Malevala hand Bakuma the orb. Bakuma stares at it for a while.

BAKUMA

Yes this will do nicely.

Bakuma opens the panel on his front and places the orb within it. Bakuma processes the information, and numerous girders start to come to him. Malevala jumps out of the way of the girders. Kia and the student come out of the warehouse just as Bakuma turns into a giant tank-like vehicle with a saw. The student looks up at Bakuma's new form?

STUDENT

That monster turned into that?

KIA

Yeah. Why?

STUDENT

Oh man, where's an Autobot when you need one?

MALEVALA

Bakuma, I think you know what to do now.

BAKUMA

Yes.

Lights flash on Bakuma as the saw blade starts to spin. Bakuma drives forward destroying part of the warehouse district as he drives.

KIA

Get to a safe place.

STUDENT

What about you?

KIA

I'm a Power Ranger. I'll be fine.

The student runs to what he thinks is a safe place.

KIA

Well I guess there's only one thing left to do now, but there's no way I can defeat that thing with Marine 5. So I might as well try out Shovel 7.

Kia takes out her morpher and rotates the screen. She presses the launch button and the voice from the morphers says, "launch". She then presses the "7" and the voice says, "shovel".

KIA

Shovel 7; venture forth!

Kia revs the digitize gear.

INT. THE D.A.T.A. BASE ZORD BAY - DAY

The launching pad makes its way over to Shovel 7. Shovel 7 starts to flip its shovel arm back and forth a few times, before launching.

EXT. A FORESTED AREA - DAY

Shovel 7 carries a few logs in its shovel. It turns to its right, drops the logs and continues on its way. Shovel 7 makes its way over to where Bakuma is.

BAKUMA

Just what do you think you are?

Inside of Shovel 7 Kia places her morpher into the side slot of her Control Case.

KIA

Shovel 7; let's go!

Outside Shovel 7 continues to drive toward Bakuma.

BAKUMA

Time to slice and dice!

Inside of Shovel 7 Kia grabs onto the secondary controls.

KIA

Shovel Arm!

Outside Shovel 7's arm extends forward and grabs onto the Bakuma's saw blade. Shovel 7 claws at Bakuma, but Kia is unable to get a good grip on it. The saw continues to spin as Kia tries to grab onto it. Eventually Bakuma forces Shovel 7 off of a ledge. Kia slams on the brakes, and Shovel 7's safety devices flip out preventing Kia from completely falling. Bakuma drives forward and slices a crane tower. The tower falls in the direction of the student. The student ducks for cover.

KIA

Watch it!

Kia swings the Shovel 7's shovel, but misses the tower.

KIA

Great, I missed.

One of Dump 1's arms extends out and catches the tower. Kia notices.

KIA

Paul?

Inside of Dump 1, Paul (morphed) nods.

KIA

(to the student) Get out of the way now!

The student runs away from the area. Inside of Dump 1 Paul flips one of the secondary controls. Outside the arm of Dump 1 throws the tower at Bakuma.

PAUL

Kia, get up now.

KIA

I'm way ahead of you.

Shovel 7 pulls itself up onto the ledge again.

KIA

Okay we've got to get that orb out of the monster.

Shovel 7 drives up to Bakuma, and strikes the part of the saw blade turret. The saw falls off.

KIA

Shovel Swing!

Shovel 7 grabs onto Bakuma and starts to spin around, eventually letting go of Bakuma. An explosion occurs behind Shovel 7.

PAUL

Good work.

Bakuma returns to his regular self, which also releases the orb. The orb lands near the student and he picks it up. Malevala walks up to Bakuma.

MALEVALA

Chouninpo! Kyodai henkei!

Malevala extends her arms forward and releases numerous paper charms. The charms fly around Bakuma causing him to grow to gigantic size. Bakuma fires a cannon ball at Shovel 7 from his shoulder cannon. The cannon ball causes an explosion near Shovel 7, which Kia feels the effects of. Bakuma aims his cannon arm at Shovel 7, but then gets hit by numerous missiles. Formula 2 with its front end flipped up drives forward. Formula 2 fires even more missiles at Bakuma causing the monster to fall down.

MARK

Trying to do this on your own Kia?

Inside of Formula 2, Mark (morphed) drives. Outside Gyro 3 flies through the air. Eddie is morphed within.

EDDIE

I don't know what's going on here,
but...

Dozer 4 drives up to the area. Rachel is morphed within.

RACHEL

We'll take this thing out like we
always do.

KIA

Guys.

PAUL

Okay, it's Megazord time.

KIA

Right.

Inside of Shovel 7 Kia presses the "launch" and "5" buttons on her morpher. She revs the digitize gear. Outside Marine 5 makes its way to the other D.A.T.A. Trekkers. Dump 1, Formula 2, Gyro 3, Dozer 4, and Marine 5 combine to form the D.A.T.A. Megazord. Inside of the Megazord Paul, Mark, Eddie and Rachel sit at their controls.

PAUL, MARK, EDDIE, AND RACHEL
Shovel 7, attach!

Paul presses the "combine" and "7" buttons on his morpher, and revs the digitize gear. Outside Shovel 7 lifts itself up and attaches itself to the rest of the Megazord, where Marine 5 normally is. Inside of the Megazord, Kia comes up to her control area and places her Control Case into the panel.

ALL FIVE RANGERS
D.A.T.A. Megazord, Shovel Mode!

Outside Bakuma gets back to his feet and faces the Megazord. Bakuma fires a cannon ball at the Megazord.

KIA
Shovel Shield!

The Megazord places the end of Shovel 7 in front of itself and blocks every incoming cannon ball that Bakuma fires at it. Bakuma charges at the Megazord, but the Megazord grabs onto Bakuma with Shovel 7 and starts spinning him around. Eventually the Megazord lets go of Bakuma.

PAUL
Finish it!

KIA
Shovel Punch!

The Megazord starts to punch Bakuma with Shovel 7. The punches start to come faster and faster until finally he explodes.

FADE OUT.

FADE IN:

INT. INSIDIA'S LAB - DAY

Malevala kneels before Insidia.

MALEVALA

I'm sorry mistress. This will never happen again.

INSIDIA

See to it that it doesn't. It's bad enough that the Rangers were able to get the orb and return it to the university, but those blasted extra Zord-things of theirs are starting to make me angry.

Dr. Venge walks up to Insidia.

DR. VENGE

Insidia, what if I were to say that I might have a way to take out the Rangers' computer systems?

INSIDIA

I'm listening.

DR. VENGE

This plan of mine could also help us out in another way too.

INSIDIA

How so?

MALEVALA

I just remembered something. We have a press conference in fifty minutes.

INSIDIA

About what?

DR. VENGE

Mindset's latest anti-virus software.

INSIDIA

We should probably go prepare for the conference. Venge you can tell this plan of yours on the way up to my office.

END
